

## CLEAN DIESEL SPECIALISTS THE CDS NETWORK

### Clean Diesel Specialists, Inc.

Founded in 2008, Clean Diesel Specialists, Inc. (CDS) is a California based "One Stop" Diesel Emissions Services Company with over a decade of experience providing comprehensive emissions care for on and off-road vehicles and diesel powered equipment. CDS services are currently available at licensed facilities serving 25 states across the U.S. CDS continues to advance cleaning technologies and expand its licensed Emission Service Network. CDS Network expansion is aligned with the logistical priorities of America's fleets, organizations & business operations who facilitate diesel powered equipment.

### CDS Brand Attributes

- World Class Restoration
- Certified Technicians & Facilities
- Network Logistics
- Fleet Care Expertise
- Rapid Service
- Filter Longevity
- Emission Solutions 360
- Optimized Uptime & Return on Assets
- Reduced TCO

## CLEAN DIESEL SPECIALISTS FLEET SERVICES

### Nationwide Branded Excellence

The CDS Network responds to coverage, compliance, performance and cost-efficient service demands of America's Fleets.

### Certified Quality

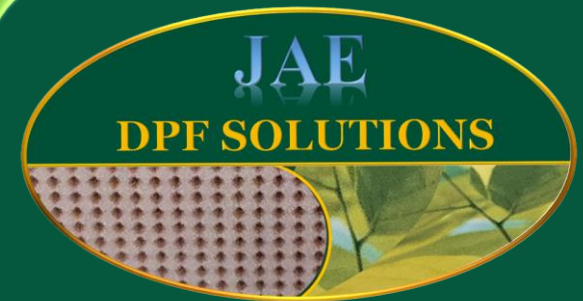

CDS licensed operations are rigorously screened to confirm their ability to perform at the CDS Brand Standard. CDS Network management works closely with its affiliates to ensure consistent client care and unfaltering nationwide excellence. All filters are serviced by certified technicians using the best equipment and proven restoration processes.

### The Cleanest DPF Possible™

CDS certified facilities restore diesel filters to "like new" performance. Our cleaning process and technician expertise eliminate unnecessary or premature filter replacement. We restore hard to clean, oil & coolant soaked filters. Most filters are cleaned and returned within 24 hours, CDS cleaning delivers extended filter life, performance optimized uptime and the financial benefits associated with equipment efficiency, reduced TCO and asset longevity.

### Preventive Maintenance

We offer cost effective preventive programs designed to extend filter life and avoid expensive, unplanned downtime.
